I'm Concerned About ordering over the internet - is it safe?

To be honest it's probably safer to order over the internet than order over the phone or give somebody your credit card (like in a restaurant). Clickbank will process your order and they are a member of the Better Business Bureau (BBB). This way we don't even see your credit card details.

Refund Policy

We offer a no quibble money back guarantee!

If you don't like our tutorials for whatever reason you can get your money back.

Simply fill in our refund form.

Can i download My Tutorial Straight Away after ordering?

Yes of course - After you have ordered successfully you will be taken to the download page where you can download the tutorial immediately.

As our tutorials are extensive - downloads can be quite large - up to 800 Mb. Over a cable connection this should take about 3 hours. We don't recommend ordering our tutorial unless you have at least a cable connection - or the patience of a saint!

If you have a dial up connection then get your tutorial on disc.

Can I Have My Tutorial on Disc?

Yes you can! - You can now order through Paypal and get your disk delivered to your door

What do i get when i order?

As soon as you have ordered successfully you will be given a link to download the tutorial of your choice and any bonus material.

Once you have downloaded the zipped files it is a simple matter of unzipping them and following the very simple instructions on how to use the tutorial.

Can I Use a Mac?

Yes our tutorials work perfectly well on a mac although the tutorials were made on a PC. The only requirements you need to run our tutorials are a web browser and the Macromedia

FLASH plugin. Both are available for free on the internet.

I have problems ordering?

Sometimes Clickbank won't be able to take your order for whatever reason. Please use our other video tutorial website - which uses BT Clickandbuy to process your order.

What Currency Are Your Prices In?

Our prices are in \$US. The tutorials are from \$14.95 each. If you aren't sure how much that is in your local currency then check out XE.com for a currency conversion.
