

PXI Driver Development Wizard - Basic Device Information

Welcome to the PXI Driver Development Wizard! The wizard gathers the information that is necessary to allow NI-VISA to control your PXI or PCI device. Please enter the basic device information below.

This wizard will generate .INF files for Windows 95/98, Windows NT, Windows 2000, and LabVIEW RT. The .INF file tells the operating system to allow NI-VISA to access the PXI or PCI device that you specify below.

PXI Manufacturer ID	Manufacturer Name
<input type="text" value="0xFFFF"/>	<input type="text" value="Your Manufacturer Name"/>
PXI Model Code	Model Name
<input type="text" value="0xFFFF"/>	<input type="text" value="Your Model Name"/>
