Urban land is an increasingly precious commodity, particularly in the center of major cities. Every spare corner of land is in demand, however small, inaccessible or awkwardly shaped. For architects the challenge is to optimize these sites while simultaneously negotiating the web of planning regulations, to create homes suited to today’s lifestyles. Infill profiles 39 innovative and imaginative urban dwellings around the world that fill in gaps left by demolition, or that have been squeezed into plots previously considered unsuitable for development. Each case study is illustrated with photographs, drawings and specially drawn site plans, all accompanied by authoritative commentary. The authors focus particularly on the challenges that each architect faced and how they were overcome.

Annabel Biles is a writer and urban design consultant. She is the former head of communications at the Commission for Architecture & the Built Environment (CABE) in London, and was previously deputy editor of Urban Age magazine at the World Bank, Washington, DC.

Adam Mornement is a freelance writer and editor. He is former deputy editor of World Architecture, and a regular contributor to the Times Magazine, Grand Designs Magazine, and Condé Nast Traveller among other publications. His books include Corrugated Iron – Building on the Frontier (2007) and Extensions (Laurence King, 2007).
This book examines over 30 bathroom designs from around the world, each one designed by a notable architect. For each bathroom there is an image of the whole house (placing it in context and providing a flavor of the general design style), images of the bathroom, and a floor plan showing its relation to other spaces. The drawings in this book are all made to a consistent style and to a set number of scales for easy comparison. Dimensions are also included with the drawings as well as details of fitted units (baths, showers, basins, etc.). The credits for the project include contact details of suppliers so that the exact materials and fixtures can be sourced. The projects are arranged into chapters by type of dominant material: glass, steel and stone. The book will be invaluable for all practising architects as well as those considering commissioning a high-quality bathroom for their own house.

 DETAIL IN CONTEMPORARY KITCHEN DESIGN

Virginia McLeod

Detail in Contemporary Kitchen Design features over 30 kitchen designs from around the world, each created by a notable architect. Arranged into chapters according to the dominant material used—stone, timber, and steel—each design is accompanied by an image of the whole house. This selection of insightful case studies includes interviews with clients, designers, and manufacturers and provides an overview of the whole process of commissioning and creating a contemporary bespoke kitchen. An invaluable reference for practicing architects, interior designers, and students.

2008 / 192 pp / 350 ill. / 978-1-85669-570-1 / hc / $45.00 / CDN $58.50

 DETAIL IN CONTEMPORARY LANDSCAPE ARCHITECTURE

Virginia McLeod

Detailing makes a landscape unique, and a landscape architect outstanding. Featuring many of the world’s most highly acclaimed landscape architects, the book presents 40 of the most recently completed and influential landscape designs. Each project is presented with color photographs, site plans, and sections as well as numerous construction details.

Invaluable for architecture, garden, and landscape design students, this book will be a resource not only for understanding the work of the best contemporary landscape architects, but also for their own design work.

2008 / 192 pp / 180 color + 350 b/w ill. / 978-1-85669-498-8 / hc / $50.00 / CDN $69.95

 DETAIL IN CONTEMPORARY RESIDENTIAL ARCHITECTURE

Virginia McLeod

This book provides analysis of both the technical and the aesthetic importance of details in the development of contemporary domestic architecture from 2000 to 2005. Featuring many of the world’s most highly acclaimed architects, this book presents over 50 of the most recently completed and influential house designs. For each house there are color photographs, floor plans, sections and elevations, and numerous construction details. The book also features in-depth information for each project, including the size, the client, the architectural project team, main consultants, and contractors.

2007 / 240 pp / 200 color + 400 b/w ill. / 978-1-85669-482-7 / hc / $50.00 / CDN $69.95
